

What is claimed is:

1. A cosmetic comprising an amphoteric urethane resin having carboxyl group(s) and tertiary amino group(s) in a molecule, and silicone polymer.
2. The cosmetic according to claim 1, wherein said silicone polymer is a nonionic silicone polymer.
- 10 3. The cosmetic according to claim 1, wherein said silicone polymer is a polyether-modified silicone polymer.
- 15 4. The cosmetic according to claim 1, wherein said silicone polymer is a phenyl-modified silicone polymer.
- 20 5. The cosmetic according to claim 1, wherein said silicone polymer is an amino-modified silicone polymer.
- 25 6. The cosmetic according to claim 1, wherein said silicone polymer is an alkyl-modified silicone polymer.

7. The cosmetic according to claim 1, wherein  
said silicone polymer is an alkoxy-modified silicone  
polymer.

5       8. The cosmetic according to claim 1, wherein  
said silicone polymer is a cyclic silicone polymer.

9. The cosmetic according to any one of claims 1  
to 8, wherein said silicone polymer is in the form of an  
10     aqueous solution or a water dispersion.

10. The cosmetic according to any one of claims 1  
to 9, wherein said amphoteric urethane resin has  
structural unit(s) derived from ethylene oxide in its  
15     structure.

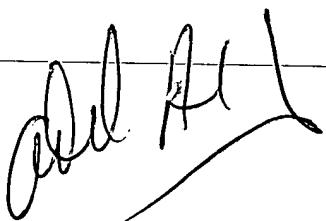

11. The cosmetic according to any one of claims 1  
to 9, wherein said amphoteric urethane resin has  
polysiloxane bond(s) in its structure.

20

12. The cosmetic according to any one of claims 1  
to 11, wherein said amphoteric urethane resin is in the  
form of an aqueous solution.

25

1 to 12, which is at least one selected from the group consisting of hair cosmetics, skin care cosmetics and make-up cosmetics.
